Volkswagen Financial Services (Sweden & Germany)

PROJECT MANAGER

"MOVE OF DATACENTER AND ALL ITS RELATED IT-INFRASTRUCTURE FROM SÖDERTÄLJE SWEDEN TO BRAUNSCHWEIG GERMANY"

Responsibilities:

- Project Manager for VWFS Sweden largest IT-migration ever: full decommissioning of Sweden's data center and seamless relocation of all infrastructure to Germany.
- Managed 12+ parallel workstreams (applications, compliance & security, network, Active Directory & M365, Citrix, vendor integrations) ensuring flawless cross-functional alignment.
- Coordinated a global team of 80+ engineers, architects, testers, technicians, and vendors across Sweden & Germany within the SAFe framework.
- Successfully delivered the full relocation of the national datacenter and all IT infrastructure to Germany's central datacenter, with zero business downtime.
- Recognized globally for excellence in IT delivery after winning Volkswagen Financial Services Global IT Award 2025 (1st place).

Volkswagen Financial Services (Sweden & Germany)

PROJECT MANAGER

"MIGRATION TO AWS OF CUSTOMER-FACING APPLICATIONS & SHARED CLOUD INFRASTRUCTURE"

Responsibilities:

- Designed and executed prioritized, system-by-system migration strategy aligned with SAFe PI-planning.
- Developed and implemented shared cloud foundations for networking, security, monitoring, and account structure.
- Built and led dedicated DevOps team to support migration and long-term AWS operations.
- Established best practices for infrastructure-as-code, CI/CD pipelines, tagging, and governance in line with Volkswagen MPS framework.
- Collaborated closely with security, infrastructure, and compliance teams in Sweden, Germany, and AWS to ensure alignment, risk mitigation, and regulatory compliance.

Achievements:

- Successfully led AWS migration program, enabling closure of Swedish data center and transforming legacy on-premise infrastructure into a secure, scalable cloud platform.
- Migrated customer-facing applications to AWS, improving response times, accelerating iteration, and shortening time-to-market; transitioned non-critical systems to central data center (CDC) in Germany.

## LANGUAGES

Swedish | Native  
English | Fluent (C2)  
French | Basic (A2)  
German | Basic (A2)

Extensive experience leading multicultural teams across Europe, Africa, Middle East, USA, and Asia.

## EXPERIENCE

20 years' experience as a Project Manager, delivering 17 major assignments

Detailed assignment history available upon request

## STARTUPS

Founded several successful start-ups:

- **Media Session** – Media platform with customers including SVT, Eurosport, and MTV. (Exited – sold)
- **Creative Capital** – Venture capital firm focused on pre-seed investments. (sold)
- **Cavalli Consulting** - management and IT consulting with a focus on digital transformation, cloud, and large-scale program execution

Currently in his free time involved in:

- **BotlerBot** – Your personal AI assistant
- **PeoplePolitics** – Social media platform for transparent democracy
- **Cavalli Productions** – Music and creative productions
- **OurHistory** – Interactive history map

## CORE COMPETENCIES

- Generative AI & AI-driven Platforms – strategy, design, and implementation of enterprise and start-up AI solutions.
- Digital & Cloud Transformation – large-scale migrations (AWS, M365), DevOps enablement, and organizational training.
- Enterprise Program Leadership – multi-million euro budgets, regulated industries, cross-border delivery.
- Agile Leadership & Product Management – scaling squads, building high-performing teams, driving measurable outcomes.
- Executive Stakeholder Management – engaging C-level leaders, aligning business and technology strategy.

## SKILLS & METHODS

Project & Delivery Methods:

Prince2 (Certified, 8 years) • Scrum (12 years) • SAFe (5 years) • PPS (6 years) • RUP (2 years) • ITIL (5 years)

Tools & Platforms:

Jira • Confluence • Microsoft 365 • MS Project • SharePoint • Slack • AWS

ERP & Business Systems:

SAP SuccessFactors • SAP IdM • Visma • Medius • View21 • Fortnox

Technical Knowledge:

Java • SQL • UML • API Integrations • Data Migration

## ADDITIONAL INFO

- Citizenship: Swedish
- Driver's License: Category B
- Business License: UAE (RAKEZ)
- Willing to travel and relocate if needed
- References available upon request

## ASSIGNMENT LOG

2015.11

**postnord**

*PostNord (Solna, Sweden)*

2017.01

PROJECT MANAGER, SCRUM MASTER  
"NEW E-COMMERCE SOLUTION"

Responsibilities:

- Managed development and rollout of a new e-commerce integration solution for PostNord's distribution offering, enabling merchants to seamlessly connect their platforms with PostNord's logistics network.
- Coordinated offshore development in Bulgaria, ensuring efficient agile delivery through Kanban and Scrum practices.
- Oversaw continuous integration, automated testing, and deployment processes.

Achievements:

- Successfully launched the first version of the solution in Denmark as early as June 2016.
- Provided customers with an intuitive self-service channel to choose how they wanted their goods delivered.
- Enabled continuous improvement with new features and markets added regularly.

## ASSIGNMENT LOG

2009.01

Hennes & Mauritz (Stockholm, Sweden)

2009.04

SYSTEM RESPONSIBLE

"SIGNS IN STORES"

Responsibilities:

- Appointed temporary System Responsible for "Signs in Stores" after project completion.
- Managed preparation, global rollout, and operational handover to permanent system management.

Achievements:

- Secured a smooth worldwide rollout of "Signs in Stores" across all H&M stores.
- Ensured successful transition from project delivery to operational governance.

*Publishing system*

*Signs system*

*InDesign*

*Retail*

2007.11

Hennes & Mauritz (Stockholm, Sweden)

2008.12

PROJECT MANAGER, SCRUM MASTER, BUSINESS ANALYST

"SIGNS IN STORES"

Responsibilities:

- Led the end-to-end development of a new global system for creating and managing in-store price and information signs.
- Defined requirements, drove feasibility study, and managed development using Scrum methodology.

Achievements:

- Delivered a breakthrough system that combined central governance with local flexibility — centrally controlled templates and instructions, yet fully adaptable by each store for local messaging.
- Rolled out worldwide, enabling global campaigns to transform all store signage within 24 hours (e.g., the Madonna collection) and later expanded for use across multiple H&M Group brands.

*Publishing system*

*Signs system*

*InDesign*

2007.11

Teracom (Stockholm, Sweden)

2007.11

STRATEGIC ADVISOR

"DIGITAL SIGNAGE MARKET OPPORTUNITY FOR TERACOM?"

Responsibilities:

- Engaged to assess Teracom's potential role as a digital signage supplier; conducted workshops and analysis of market requirements, competitive landscape, and value-chain positioning.
- Evaluated business case viability and differentiated value-add versus established ecosystem players.

Achievements:

- Recommended not entering the market due to limited unique value and high risk of low profitability.
- Despite proceeding, later market developments confirmed the analysis, with the initiative failing to gain traction, validating the recommendation.

*Media technology*

*Digital Signage*

2007.05

Hennes & Mauritz (Stockholm, Sweden)

2007.11

BUSINESS ANALYST

"IMPROVED ENTRANCE FLOW HM.COM"

Responsibilities:

- Collected business requirements and real-user entrance data; analyzed drop-off patterns and pain points at site entry.
- Facilitated cross-functional feasibility sessions with engineering; prioritized changes using an effort-impact matrix into quick wins, next release/longer-term, and won't do.

Achievements:

- Enabled implementation of quick wins and set the direction for the subsequent UI redesign of the entry experience.

*Geodata*

SOLD • 2004

Founder, CEO, Product Owner, and Tester for successful startup Media Session, which developed the Moses Media Platform. The platform enabled TV channels to manage and process SMS, MMS, voice, e-mail, WAP, web, and streaming video in one integrated system. Development followed Extreme Programming (XP) with strong emphasis on unit testing, code reviews, pair programming, and frequent releases.

Within the first year after launch, Media Session secured major TV networks including Eurosport, MTV, and SVT as clients. The platform was also deployed for high-profile live events such as the Summer Olympics and the FIFA World Cup, demonstrating its ability to deliver at global scale under peak demand. Gustaf sold his shares in the company in 2004.
